Mutual Security Agency

Data as of June 30, 1952

FOREWORD

This report is prepared monthly, by the Division of Statistics and Reports of the Mutual Security Agency. The charts and tables included herein summarize important activities under the economic assistance and defense support programs of the Mutual Security Agency and its predecessor, the Economic Cooperation Administration, through June 30, 1952.

EUROPEAN OPERATIONS

Charts and appendix tables on the European Program cover MSA/ECA operations beginning with April 3, 1948, the date of enactment of the Economic Cooperation Act of 1948. The totals for allotments, procurement authorizations, and paid shipments include Mutual Defense Assistance Program funds transferred to MSA/ECA beginning with the fiscal year July 1, 1950 - June 30, 1951. They do not include MDAP fiscal year 1950 funds assigned to ECA, since these earlier funds were not considered part of "country aid" totals.

Appendix statements covering fiscal year 1952 are based on net activity beginning with July 1, 1951, computed by subtraction of cumulative data by country and commodity as of June 30, 1951, from cumulative data as of June 30, 1952. This is a distinct departure from the technique of calculating fiscal 1952 activity as shown in this report between July and November 1951 inclusive. During that period, the statements covering "fiscal 1952" included only the new authorizations or expenditures against new authorizations issued with new serial numbers beginning with July 1; this excluded all increases and decreases which had occurred during fiscal 1952, in authorizations or expenditures against authorizations issued prior to July 1, 1951.

FAR EAST OPERATIONS

Charts and appendix tables on the Far East Program cover MSA/ECA operations under the China Area Aid Act of 1950, approved by the President on June 5, 1950. The coverage differs from that for Europe in that the statements include amounts for technical assistance in addition to amounts for commodities and ocean freight. Appendix statements covering fiscal year 1952 are based on net activity beginning with July 1, 1951, computed by subtraction of cumulative data by country and commodity as of June 30, 1951 from cumulative data as of June 30, 1952.

†NET AID: Allotments adjusted upward to reflect intra-European drawing rights utilized and initial credit positions under EPU, and downward to reflect intra-European drawing rights extended and initial debit positions under EPU.

^{B/} Includes allotments for Overseas Territory Development.

^{B/} Reflects a reduction of \$11.4 million in conditional aid to Sweden— a portion of Sweden's fiscal 1951 allotment. A like amount was allotted to EPU in fiscal year 1952 to offset the reduction in Sweden's grant to EPU.

^{E/} Excludes \$30.0 million in conditional aid programmed for offshore purchases in Belgium by France (\$14.0 million), the Netherlands (\$9.0 million), and the United Kingdom (\$7.0 million). The amounts for each of the three countries making purchases in Belgium are shown as grant aid for these countries.

^{d/} Excludes GARIOA.

^{B/} This amount reflects transfers of \$0.9 million in 1949/50 and \$4.1 million in 1950/51 from Trieste (grant aid) to Italy on a conditional aid basis to permit purchase of wheat under the International Wheat Agreement by Italy for delivery to Trieste.

^{f/} Breakdown between MSA/ECA and MDAP reflects the transfer, on April 15, of \$30.0 million in aid previously allotted from MDAP to regular MSA defense support funds.

^{g/} Initial position credits under EPU exceed initial debits covered by conditional aid by 124.8 million units of account.
