SCOPE AND CONTENT NOTE

The Walton Walker Collection covers the years 1912-1950, from when Walker was a West Point Cadet, until his death in Korea. It consists of several series: Correspondence, official documents, photographs, maps, scrapbooks, and printed materials. The material is grouped by series, and arranged in chronological order within each series. There is also some separated material (scrapbooks and oversized) that is catalogued with the collection as well.

The bulk of the material covers the XX Corps and the European Theater of Operations in World War II. There is some miscellaneous correspondence, but on the whole, personal correspondence is thin. The printed materials range over the whole of Walker's career, from West Point memorabilia to contemporary news accounts of action in Korea. The scrapbook collection covers this span as well. Also present are newspapers, magazines, miscellaneous memorabilia, and two boxes of artifacts, mostly flags, from Walker's career.

Of particular interest to the researcher is the extensive amount of photographs embodied in the Walker Collection. There are over 1,100 European Theater of Operations photos arranged by date and city. Also represented are all of Walker's post-WWII assignments, and there are some from the Korean fronts as well. There are numerous photographs of many important military figures of this period, including George C. Marshall, Dwight D. Eisenhower, George Patton, Douglas MacArthur, Chester Nimitz, Omar Bradley, J. Lawton Collins, and Louis Johnson, among others. The total number of photographs approaches 4,000.

There is also a wealth of material concerning the XX Corps and 3rd Army operations in Europe, 1944-5. Examples include after-action reports from the battalion to Army level, operational maps, command post documents, printed unit histories, and manuscript accounts of combat and training events.
